

ABSTRACT

Masruroh, Dewi. 2015, THESIS. Title: “Analysis of Accounting Information Systems Human Resources on Regional Water Company Tirta Dharma Pasuruan”

Advisor : Zuraidah, SE., MSA

Keywords : Accounting Information Systems, Human Resources PDAM Tirta Dharma Pasuruan.

This research is a case study on PDAM Tirta Dharma Pasuruan. The purpose of this study is to determine and analyze the accounting information system of human resources at PDAM Tirta Dharma, whether it has a internal control. In addition, it also analyzes the existing payroll system at PDAM Tirta Dharma Pasuruan which may have weaknesses, and proposes some advices to help the existing problems.

The study is a descriptive research. Data collection techniques consist of observation, interview and literature study.

The results of the study are expected to facilitate the information systems in managing the human resources payroll so that it can improve the performance of the PDAM Tirta Dharma Pasuruan. The implemented payroll accounting information system has been effective. It can be seen from the functions, organizational structure, and the documentation which are in accordance with the theories from the lectures.
